Re: Precise Drywall reference

To whom it may concern:

Please let it be known that Precise Drywall performed a project for Kitchell Contractors called Eagle College Prep in Phoenix, Arizona. I was the manager of the project and dealt directly with Jeremy Barbosa on the contract. Precise Drywall performed very well for us on a tightly scheduled project. We finished the project 83 days after the first concrete was placed on the project and Precise was a direct result in that success. They helped us stay proactive on the project by researching the plans for problems and presenting any issues to us with a resolution. They worked with the City of Phoenix on a deferred framing submittal and expedited that process with the City to ensure a timely finish of their work. I look forward t the next time I can work on a project with Precise. If you have any questions that I can answer regarding Precise Drywall, please feel free to contact me at (602) 390-2252.

Sincerely,

Russell Myers
Sr. Project Manager

Kitchell Contractors
