

14 December 10

To whom it may concern,

It is with great honor to write a letter of recommendation for Jeremy and Andrew Barbosa of Precise Drywall. They have worked on many projects designed by my firm over the past seven years. During that time, they performed drywall services on our firm's high-end residential and tenant improvement projects.

Precise Drywall has an exceptional work ethic. They are quick thinkers and creative - easily understanding the elements of a project, and executing every task put before them. They work wholeheartedly, assuring that every detail is perfect and concise, in turn producing high quality work.

Jeremy and Andrew not only have an exceptional company; they are also a great asset on our projects. They are always a pleasure to work with, both as team members and as an individual company. This being said, I am proud to recommend Precise Drywall to your company.

If you have any questions or concerns, please feel free to contact me directly.

Regards,
